I'm dead worried about the children. Even if they're born normal, they may end up with issues with a father like that.

The last I heard, his son wasn't toilet trained even at 5 years old? And he has speech development issues? And his toddler daughter was fed instant noodles. He had no idea that it's not nutritious or child appropriate at all. The doctor was shocked to hear it, even teaching him how he, the father, should plan his own meals.

The only sane person in the family is his wife, but even then she struggled to keep things afloat. She saw that English is too important in this country, and nobody in the family is good with English, and she worries about the prospects of their kids. She wanted to send them to tuition, but Kurt just brushed it off with a wait and see attitude.

I admit that I used to think that Mrs Kurt was some ignorant Vietnamese village girl, but that incident made me respect her. She saw a problem brewing up and she wanted to take action to nip it in the bud.

And Kurt just treat his kids as photo props, just like his toy WWE belts and the Christmas tree behind them. He berated mall security and counter staff because the festive decorations were insufficient. And he would rather spend time and money on BDSM mistresses than his own children.

Goh Wei Choon of The Woke Salaryman volunteered to help him sort out his expenses, but GWC got branded as a hater because Kurt refused to make compromises to his spending.

Kurt Tay is fucked and his children will suffer from his folly because he is the main breadwinner of the family. He works as a security guard but his licence is gone because of his criminal record. He has no education, no skills and 5 dependents to feed.

He lacks impulse control, and he lacks insight into his lack of impulse control.

I always thought he was on the spectrum.

If you are in his group up till his final moments , he was still talking about enganging escorts and bdsm mistress to eat their shit etc.

Really can't believe up till his last moments still so unhinged and zero remorse

Not well read on this saga, but since he's getting some jail time for distributing a lady's sexual content whom he had beef with for distributing his (Kurt's) sexual content, is the lady not being charged for distributing sexual content as well?

Shouldnt the "victim'' also be charged? It sounds like she herself commited multiple crimes at least according to the article.

Wah I have been following this whole thing when it was happening. Kurt is one stupid fella, always incriminating himself in his telegram group chat and deserves this sentencing. However, it is crazy that the “victim” in this article is able to get away with it as if she didn’t spread the video of his degrading acts that shows his private areas. If anyone was in her group chat before she deleted it to prevent incriminating herself, would know that she was heavily trolling Kurt and when his video was leaked out, I vividly remember her saying something along the lines of asking who leaked out the video that only she has possession of. Crazy how he got 14 months for something that was already on the internet that was originally leaked by someone she was intimate with.

This “victim” is in no way innocent in this

62

Personal_Number4789 · 1d ago

Yea it’s absolutely bonkers. The woman instigated him to do degrading stuff for money. Who then leaks his video despite them having a transactional exchange.

And now he’s in jail. Kurt Tay or not, this guy is obviously special needs or having some mental disorder.

As much as I feel bad when he gets mocked or heckled in public by his haters, he seriously dug his own hole and screwed himself over. He could have just been low-profile and take care of his family like a responsible father. Or he could even be a WWE-fanatic Youtuber, but nah he got involved in many weird shit that even my mind can't imagine on my craziest.

Kurt Tay and his followers represent the sector of society you really don't want to be associated with. Trolls, incels, low SES toxicity.

I'm far from perfect but I can imagine hanging around such people to be exhausting. Like what joy does one get from making fun of an obviously mentally unwell individual?

12

Tough-Ad-724 · 1d ago

Believe it or not there are genuine fans who want to help him to find his feet and provide for his family.

But guy bans these people the moment they dish any advice that sounds like criticism of his shortcomings.

What do surprise me is how low some ladies can get for money. Imagine you open the door and see is kurt tay yet one still provide the service for money. It show that you have no boundaries as well.

Anyway kurt tay also deserve it. Spreading video and threatening others is not a way to go tbh

2

CutEmbarrassed9463 · 15h ago

Dude is obviously mentally unwell. Society has little sympathy for grown men with mental issues especially when they are doing things that are easily mocked

2
